# We Offer Experience-Oriented Travel.

We design our trips to let our guests experience the unique flavor of destinations — By enjoying the pinnacle of hospitality at traditional inns where you could come into contact with the culture and arts of Japan, walking shoulder-to-shoulder with a guide who shares fascinating facts that you would never glean from the internet, visiting local producers and dedicated chefs who share a passion for cuisine.

# The Leading Company Provides Exclusive Trips by Pursuing Quality Rather than Quantity.

GLOBAL has been one of Japan's leading specialists in overseas travel for almost 55 years. With the special brand of know-how and long years of experience, we offer tours with specific themes for discerning travelers:

Concert Cruise with the Vienna Philharmonic Orchestra on the Western Mediterranean Sea, a special collaboration with Relais & Châteaux, a tour flying into Antarctica, a journey on world-renowned luxury train represented by Rovos Rail and Blue Train.

In recent years, we have also focused on domestic tours for senior guests who are incapable of traveling abroad. With the cooperation of our partners throughout Japan, we can offer an experience beyond the reach of individual travelers.

# Things We Value

We carefully select each and every accommodation and restaurant to deliver high-quality tourism products and services to discerning travelers.

## Accommodation

We offer a variety of accommodation that matches your taste. -Whether it references traditional craftsmanship where you could come into contact with the culture and arts of Japan, or a room that integrates Western comforts into traditional Japanese style that comes with a private open-air hot spring, or a hideaway ryokan known only to those in the know which has an excellent reputation for cuisine.

## Cuisine

Not only do we emphasize fancy and artful options, but we also select a farm-to-table restaurant that serves dishes with seasonal nutrient-dense ingredients harvested and delivered directly to the restaurant from local producers. We also love to discover a hideaway restaurant where you can enjoy an authentic culinary delight with just a few others in a remote place.

## Interact

By working collaboratively with the local community, we provide unparalleled access to authentic cultural experiences involving interactions with locals who are eager to share time-honored traditions that have been passed down for generations. They are looking forward to assisting you in experiencing its culture and creating lifelong memories.

# The Absolute Pioneer of Mountaineering Trips in Japan.

ALPINE is Japan's first travel company to conduct a hiking tour to European Alps. Mitsuhiro Yoshino, the ex-chairman of ALPINE and the very first Japanese to reach the summit of the Matterhorn North face in 1965, made it possible to conduct a hiking tour to the European Alps in 1969. People were yearning for that far place then.

Our long journey as a pioneer of mountaineering trips can be said that it is equal to the history of those tours in Japan. We will keep offering lots of great trekking opportunities based on our expanding knowledge and years of experience.

**Shinichiro Takagi**  
**Owner And Executive**  
**Chef At Restaurant**  
**Zeniya**

Shinichiro Takagi is the second-generation owner and executive chef at highly acclaimed restaurant Zeniya, located in Kanazawa. (Ishikawa Pref.) Although he once studied abroad in the U.S, and his major at university was commercial science, he distinguished himself as a chef who provides an unforgettable dining experience in Japan. He enhances the local delicacies by accompanying it with the perfect local sake of Kanazawa, a region renowned for its sake breweries. Following his curiosity for the pinnacle of Japanese cuisine, he has been invited to serve his exquisite dishes at numerous important events across the globe. Furthermore, his restaurant Zeniya got two Michelin stars, one of the greatest honors that all chefs aspire to.

Yuri Ugaya  
**Garden Designer**

Yuri Ugaya is a garden designer and producer based in Japan. She was born and raised in Kyoto. After studying Japanese cultural history at University in Kyoto, she went abroad to over 30 countries, solely to admire the gardens. She studied gardening at Niagara Parks Commission School of Horticulture in Canada and had an experience in Kew Gardens, England. Her major works include a Japanese “Zen” garden she created at the Grand Central Station, New York in 2017.

Gota Miura  
**Professional Skier**

Gota Miura is the youngest son of Yuichiro Miura, “The Man Who Skied Down Everest”. Because of his unique family background, he climbed Monte Rose and Mt. Kilimanjaro at the age of 11, and Mt. Elbrus (Russia) at the age of 16. Participated in the Lillehammer Olympic Games (1994) and Nagano Olympic Games (1998), he has long been a prominent mogul skier in Japan. Thus, he was involved with the freestyle skiing World Cup and Olympic Game commentator. At Sochi Olympics (2014) and PyeongChang Olympics (2018), he commentated on 4 Freestyle skiing events. (During these events, his commentating was so unorthodox for the Japanese that, they made him famous as a unique commentator rather than a climber or skier.) Along with his carrier, he was supporting his father Yuichiro Miura to climb Mt. Everest at the age of 70,75 and 80(The current world record of oldest to climb Mt. Everest). Gota himself had stepped the summit of Everest twice in these expeditions.
